

## Colorado Data Sharing Network (CDSN)

We are helping to enhance Colorado's watersheds and water quality by providing CDSN's data partners and Colorado's citizens with an accessible and affordable tool kit for data management, data analysis, and data sharing.

Thank you for contributing to the Colorado Data Sharing Network! The **UNCOMPAHGRE WATERSHED PARTNERSHIP** became our fiscal agency in 2024 and is a 501(c)3 nonprofit.

Your contribution supports the annual maintenance and enhancement of our data management system. CDSN currently helps 62 water data organizations manage, analyze, and publicly share more than 4.8 million water quality data records at more than 12,300 Colorado monitoring locations throughout Colorado. If you collect environmental or water data, please join us!

It costs over \$30,000/year for CDSN to provide high-quality support and upgrades to our mapping, GIS, and analysis applications. We rely on volunteers and donations. Every contribution helps!

A large volume of excellent data ensures appropriate environmental monitoring and informed decision-making that improves Colorado's rivers, streams, lakes, ditches, and springs' water quality.

You may make a **tax-deductible donation** by completing this form and mailing it to:

**CDSN c/o Uncompahgre Watershed Partnership (UWP)**

**PO Box 392**

**Ridgway, CO 81432**

**To donate securely online, please email [cdsn@coloradowaterdata.org](mailto:cdsn@coloradowaterdata.org) or call 970-258-0836 for assistance.**
